Diverse Clients

From wellness and ecommerce, to the eclectic mix of everything from finance to food, GB has always maintained a broad mix of clients.

We like it like that. It keeps things fresh and interesting and what we learn from one industry, we are often able to apply to another. It's one of the reasons we remain sharp and knowledgeable.

		OLIVIA PALERMO
		
		
		
		

Ellie S

James and his team created a beautifully crafted website that reflects the spirit and dignity of my law practice. James respected my mission, understood the realities of solo practice, and supported my goals with warmth and boutique-level attention.

Jonathan C

James is that rare individual who truly cares as much about his customers' actual needs as he does about growing his business. He is also by far one of the most knowledgeable and hard-working person we have ever come across in the field of digital media.

Melyssa J

They approached every project as a partner, always asking the right questions & offering great ideas. They challenged us to think outside the box and provided solutions to any given problem, delivering every project on time, budget and strategy without compromising the quality of work.

Marilois S

James and his team went above and beyond any expectations. In fact, he viewed our relationship as more collaborators in building my business. He provided strategic advice and referred critical partners, all of which were outside his role.

Dr. Jennie B.

James has been an exceptional creative and strategic partner for my websites and brand for the past five years. He listens closely, is consistently flexible as my offerings evolve, and translates a complex, nontraditional model into a polished and distinctive online presence that feels authentically “me”. Highly recommend.

Testimonials

#GoodBusiness

#GoodBusiness
#StrategicGrowth

This hashtag represents a business model where integrity meets innovation, and where success is measured not only by profits but **by the positive impact on clients, employees, and the community.**
